

JURY IS SECURED FOR TRIAL OF HAINS

Scene of the Tragedy to Be Duplicated in Miniature in the Courtroom.

FLUSHING, N. Y., Dec. 15.—A jury of twelve men has been selected to try Thornton J. Hains, a story writer, as a principal in the killing of William E. Annis, a publisher, who was shot to death by Captain Peter Hains, Jr., at the Bayview yacht club last summer. One hundred and seventeen talesmen were examined before the jury box was filled.

The prosecution's case will be presented by District Attorney Darrin, and it is expected that the examination of witnesses, both sides will consume at least two or three days.

A feature of the trial will be a tank of water and a model of the boat and cat boats in miniature, representative of the scene of the shooting, that will be placed on a table in front of the witness. Iron manikins, representing the principals of the affair, will be moved about in this miniature theater to illustrate actions and positions taken in the tragedy by Hains and witnesses. The jury, members of which will be permitted to return to their homes at the conclusion of each day's trial, is made up as follows:

William Hill, foreman of jury; Thomas Walsh, builder; Henry Hecker, shipping clerk; Samuel W. Johnson, supply dealer; John Benham, stable man; Frederick Lee Richmond, cashier; Alexander Jardin, plumber; Hugh McCullagh, milk dealer; Louis New, carpenter; William McLean, stage mechanic; Patrick Ahern, retired farmer; and Henry Boenig, a foreman.

It Is a Wonder.

Chamberlain's Liniment is one of the most remarkable preparations yet produced for the relief of rheumatic pains and for lame backs, sprains and bruises. The quick relief from pain which it affords in case of rheumatism is alone worth many times its cost. Price, 25 cents; large size 50 cents. For sale by all druggists.

Use Fortune to Save Son.

LEXINGTON, Ky., Dec. 15.—Mrs. Louellen Hargis has made public announcement that she has \$89,000 which she is prepared to spend in order to secure acquittal of her son, Beach Hargis, charged with the murder of his father. To obtain this money, Mrs. Hargis has had to mortgage her residence. The trial begins tomorrow.

Common Sense and a Tablet

Do Away With Dyspepsia, Stomach Trouble and Make Meals A Pleasure.

When your stomach goes on a strike and meetings of indignation are held all over your body, then it is that you should sit up and take notice.

It is clearly and only a question of common sense—is this thing called Dyspepsia. Take away, by abuse, over eating, excesses and high living, the things which the stomach needs and you have dyspepsia and indigestion; then other maladies follow these—this is common sense.

The stomach is willing enough but you won't let it do its work. You take away the materials which are so necessary for it to use.

Give back these materials and dyspepsia and indigestion flow and the whole machinery of man begins slowly to move and do its work.

What the stomach needs is nerve force, fluids for its digestive glands, nourishment and power. All these necessities it takes from the blood. If dyspepsia gives nothing to the blood, the blood gives nothing to the stomach. This is common sense; also, pure, simple and unalloyed.

Stuart's Dyspepsia Tablets are common sense pressed by high power into tablets. In these tablets are powerful essences which go into the stomach, digest food, stop gas making, prevent decay of food, enrich the gastric juices, are absorbed by the blood and thus give it strength to furnish a better fluid for digesting the next meal. Every physician knows what comprise these tablets; every druggist has the same knowledge also. They are natural common sense digesters which do the work for the stomach quickly and well. Every drug store carries them. 50c per package. Send us your name and address and we will send you a trial package by mail free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

AIDED IN MURDER FOR SEVENTY-THREE DOLLARS

VALLEJO, Cal., Dec. 15.—Leo P. Stout, a young naval apprentice, who is being held in the naval prison at the Mare Island Navy Yard, on suspicion of complicity in a murder and robbery in Pittsburgh in November of last year, made a complete confession to the naval authorities today. According to the latter, Stout had a signed statement that he, in company with three others, followed their victim from a street car at 1 o'clock in the morning, felled him to the ground with a blow on the head with a blackjack, beat him terribly, and then robbed him. The young apprentice said that he received \$73 as his share of the robbery.

The confession will be forwarded to the Pittsburgh police and Stout will be held pending the receipt of instructions from the Pittsburgh authorities.

EMMA GOLDMAN IS DRIVEN FROM BELLINGHAM

BELLINGHAM, Wash., Dec. 15.—Emma Goldman, who was arrested here last night, was released from jail today and pressed on board a northbound train for Canada. Miss Goldman refused to leave the city last night when given her choice between Canada and prison. She retained a criminal lawyer to defend her on a charge of inciting to unlawful assemblages. When Miss Goldman learned that if the charge failed she would be charged with being insane and her utterances used against her before a judge in the superior court she agreed to leave the city on the first train.

Emma Goldman and Dr. Ben. Reitman, who accompanied her, were taken from a northbound train at Douglass, just across the international boundary line, by Canadian immigration officers and are being held for deportation on receipt of orders from Ottawa.

"WASSERMUCKER," NEW WORD, MAY BE POPULAR

CHICAGO, Dec. 15.—"Wassermucker." This word came to enrich the English today when President Schneider, of the Chicago board of education, made public a letter from A. W. May, whose letterhead proclaimed him an United States commissioner at Dallas, Texas. Mr. May wrote to announce his sympathy with Mr. Schneider in unholding a public school teacher who publicly announced her opposition to the prohibition movement.

"Our glorious state," wrote Mr. May, "is also threatened by these wassermuckers and they propose to force state-wide prohibition on us with the aid of the next legislature."

A "wassermucker" is one who disobeys marked zeal in fighting the liquor traffic. "Wasser" is German for water, while "mucker" is recognized by the dictionary as meaning a stable clown and also a fall in the mud.

President Schneider declared that "wassermucker" would take its place along with "muckraker."

GIFTS

What can be more acceptable than a picture? A picture is never used up or thrown aside, but is always a pleasant reminder. We have such a large collection and the prices, too, are so surprisingly reasonable that you cannot fail to find what you want. Geo. W. Ebert & Co., 57 Main.

Luncheon Proves Fatal.

VALLEJO, Cal., Dec. 17.—Mrs. August Rose, wife of Bandsman Rose of Mare Island, died at 3:40 o'clock this afternoon from ptomaine poisoning, the result of partaking of food served at the luncheon given after the launching of the collier Prometheus on December 5. She is the second person who ate of the luncheon to die. James C. Reynolds, a waiter, having expired from the same cause in San Francisco last Wednesday.

Fortify the system against disease by purifying and enriching the blood—in other words, take Hood's Sarsaparilla.

GOVERNMENT NOT IN A HURRY TO OPERATE PNEUMATIC TUBES

WASHINGTON, Dec. 15.—"It is not feasible and desirable at the present time for the government to purchase, to install or to operate pneumatic tubes."

This is one of the most important conclusions reached by a commission appointed by the postmaster-general to inquire into the question of the feasibility and desirability of the government purchasing and operating pneumatic tubes in the cities where the service is now installed, which was today transmitted to Congress by Postmaster-General Meyer, the conclusions of which he approves.

The commission, however, recommends the desirability of further investigation of the subject of government ownership of pneumatic tubes in five or six years. The pneumatic tube service is in operation at present in New York, Philadelphia, Boston, Chicago, St. Louis and Brooklyn.

The conclusions of the commission are as follows:

That pneumatic tube service is an important auxiliary for rapid transmission of first-class mail in the largest cities, and performs a function not at present obtainable by other means.

That it is particularly valuable for special delivery mail, first-class mail of local origin for local delivery, supplementary closings of first-class mail for dispatch by train, and for advance dispatches of first-class mail from trains for city delivery.

That when established it should also be employed, as far as possible, economically for the transmission of other mails.

The registered mail should be sent by tube whenever security and celerity can be combined.

That pneumatic tube service appears to be still in an experimental condition, although progress has been made toward the development of a fixed standard of machinery.

That with the above reservation the regularity and efficiency of the tube service is commendable.

That the contracting companies should be required to complete their contracts without undue delay, in order that the effect of the full and complete systems may be ascertained.

That the present contracts will not expire for nearly eight years, and that that period should furnish opportunity for improving the systems and for observing the effect upon the postal service; that during that period other means of transportation may be developed which may affect the question and that it is desirable to renew the consideration of the question of government ownership in five or six years.

The above conclusions were reached by the commission after a very careful study of the question of the govern-

ment taking over and operating the pneumatic tube service which was investigated by a subcommittee of the commission.
